Address

Hyderabad,India

Technical skills

Programming languages:

C(intermediate)

Java(intermediate)

python(basic)

Web Technologies:

HTML,CSS,Bootstrap 5

Database & Backend:

SQL

Design :

web-design(Figma)

Graphic-design(canva,adobe ai)

Education

B.tech in Computer Science

CMR Technical Campus

2023-2027

intermediate

Excellent junior college

2021-2023

Achievements

Certificate of honorable Mentions

Hack4SDG ,Aiesec(hyderabad)

location: IIT hyderabad

PROFILE

I'm a second-year Computer Science student with a strong foundation in programming and design.

I have hands-on experience with languages such as C, Java, and Python, and I'm comfortable working with SQL for database management.

I've also built skills in front-end development and graphic design using Figma, enabling me to create visually appealing and functional user interfaces.

Currently, I'm diving deeper into cybersecurity and blockchain technologies to expand my knowledge in emerging fields.

Passionate about problem-solving and staying up-to-date with the latest trends in tech, I'm always eager to learn and tackle new challenges!

Projects

3D Flip Gallery (HTML, CSS, JavaScript)

Developed a dynamic 3D flip gallery using HTML, CSS, and JavaScript to create an interactive image gallery with flip animations, enhancing the user experience with smooth transitions and a visually engaging layout.

Phone Book Clone (C)

Created a phone book clone application in C that allows users to store, search, and manage contact information. Implemented file handling for data persistence and efficient data retrieval.

Smart City Project (Java)

Developed a Smart City project in Java that integrates various smart technologies such as traffic management and resource distribution. The system simulates data handling for efficient city operations, focusing on real-time decision-making and optimization.

Experience

Idea Genesis club Cmrtc

2024 – present

Technical Lead

Building member of idea genesis club , dedicated on building a community for entrepreneurship and start-ups,.
